

To whom it may concern:

I am pleased to write this letter of recommendation for **Barbora Štefková**, born **20.10.1986**.

Barbora worked for me in the Maura architecture office in Brno for one year. During that time she worked on various projects ranging from interior design to building complex. She easily adapted to both our work environment and our work pace and quickly mastered the software used in Maura architectural office.

Barbora engaged in various stages of design process and her responsibilities also included research, presentation imaging, preparing technical drawings and documents. Barbora worked on multiple projects including for example a study of **building reconstruction in Příjemky** from the first draft till the building permit documentation.

Another example of drawings prepared for building permission can be e.g. **building reconstruction in Vlkov**.

She worked on several studies in the studio e.g. a study of **loft interior conversion Orli**, or a study of **interior reconstruction in Blansko**.

She also became involved in big **housing development projects in Brno Slatina**. She worked on different stages of project documentation there. She prepared a drawing documentation of one part of the main residential building for a building permit. On the other part, which was already in realization, she worked on client changes included specialize profession like heating, plumbing, wiring...

Barbora created a lot of **3d models** and and visualizations of **detached house in Brno-Kocianka**, **restaurant Kaskada in Ostrava**, and **interiors of detached house in Prague-Troja**.

She was able to successfully complete multiple tasks with favorable results despite deadline pressure.

I appreciated Barbora talent as well as the dedication to her work. She is always willing to go the extra mile. To conclude, I would like to restate my strong recommendation for Barbora Štefková. If you have any further questions, please do not hesitate to contact me using the contact information below.

Sincerely,

Markéta Veselá
